R topics documented:

authors	2
papers	2
paper_authors	3
paper_programs	4
programs	5

Index	6
--------------	----------

authors	<i>NBER working paper authors</i>
---------	-----------------------------------

Description

Data frame containing author attributes.

Usage

```
data(authors)
```

Format

Data frame with columns

author Author ID

name Author name

user_nber Author username on NBER website

user_repec Author username on RePEc

Source

[National Bureau of Economic Research](#)

Examples

```
authors
```

```
if (require('dplyr')) {  
  paper_authors %>% count(author) %>% left_join(authors)  
}
```

papers	<i>NBER working papers</i>
--------	----------------------------

Description

Data frame containing working paper attributes.

Usage

```
data(papers)
```

Format

Data frame with columns

paper Working paper number

year Publication year

month Publication month

title Title

Source

National Bureau of Economic Research

Examples

`papers`

```
if (require('dplyr')) {  
  papers %>% count(year)  
}
```

<code>paper_authors</code>	<i>NBER working paper authors</i>
----------------------------	-----------------------------------

Description

Data frame containing paper-author correspondences.

Usage

`data(paper_authors)`

Format

Data frame with columns

paper Working paper number

author Author ID

Source

National Bureau of Economic Research

Examples

```
paper_authors

if (require('dplyr')) {
  paper_authors %>% count(author) %>% left_join(authors)
}
```

paper_programs	<i>NBER working paper programs</i>
----------------	------------------------------------

Description

Crosswalk between NBER working papers and programs.

Usage

```
data(paper_programs)
```

Format

Data frame with columns

paper Working paper number

program Program code

Source

[National Bureau of Economic Research](#)

Examples

```
paper_programs

if (require('dplyr')) {
  paper_programs %>% count(program) %>% left_join(programs)
}
```

programs	<i>NBER working paper programs</i>
----------	------------------------------------

Description

Crosswalk between NBER program codes, descriptions and categories.

Usage

```
data(programs)
```

Format

Data frame with columns

program Program code

program_desc Program description

program_category Program category based on Chari and Goldsmith-Pinkham (2017)

Source

[National Bureau of Economic Research](#)

References

Chari, A. and P. Goldsmith-Pinkham (2017). Gender Representation in Economics Across Topics and Time: Evidence from the NBER Summer Institute. NBER Working Paper No. 23953, National Bureau of Economic Research.

Examples

```
programs

if (require('dplyr')) {
  paper_programs %>% count(program) %>% left_join(programs)
}
```
