Package ‘tidyverse’

January 27, 2017

Title Easily Install and Load 'Tidyverse' Packages
Version 1.1.1
Description The 'tidyverse' is a set of packages that work in harmony
because they share common data representations and 'API' design. This
package is designed to make it easy to install and load multiple
'tidyverse' packages in a single step. Learn more about the 'tidyverse'
at <https://github.com/hadley/tidyverse>.
Imports broom, dplyr, forcats, ggplot2, haven, httr, hms, jsonlite,
lubridate, magrittr, modelr, purrr, readr, readxl, stringr,
tibble, rvest, tidyr, xml2
Suggests knitr, rmarkdown
License GPL-3 | file LICENSE
Encoding UTF-8
LazyData true
RoxygenNote 5.0.1.9000

tidyverse_conflicts

Conflicts between the tidyverse and other packages

Description
This function lists all the conflicts between packages in the tidyverse and other packages that you have loaded.

Usage
tidyverse_conflicts()

Details
There are four conflicts that are deliberately ignored: intersect, union, setequal, and setdiff from dplyr. These functions make the base equivalents generic, so shouldn’t negatively affect any existing code.

Examples
tidyverse_conflicts()

tidyverse_deps
List all tidyverse dependencies

Description
List all tidyverse dependencies

Usage
tidyverse_deps(recursive = FALSE)

Arguments
recursive If TRUE, will also list all dependencies of tidyverse packages.
tidyverse_packages

List all packages in the tidyverse

**Description**

List all packages in the tidyverse

**Usage**

```
tidyverse_packages(include_self = TRUE)
```

**Arguments**

- `include_self` Include tidyverse in the list?

**Examples**

```
tidyverse_packages()
```

---

tidyverse_update

Update tidyverse packages

**Description**

This will check to see if all tidyverse packages (and optionally, their dependencies) are up-to-date, and will install after an interactive confirmation.

**Usage**

```
tidyverse_update(recursive = FALSE)
```

**Arguments**

- `recursive` If TRUE, will also check all dependencies of tidyverse packages.

**Examples**

```
## Not run:
tidyverse_update()

## End(Not run)
```
